

EK Ecoline Industrial Gutter

EK Ecoline Chemical Resistant Industrial Water Gutter System

The only EK Ecoline Gutter can Provide This Warranty

EK Ecoline Industrial Water Gutter Product Benefits

- ☀ Guaranteed not to corrode
- ☀ Chemical Resistant
- ☀ Superior Waterproofing
- ☀ Ease of Installation
- ☀ Light Weight
- ☀ Extremely Durable
- ☀ Long lasting life span
- ☀ Does not require any maintenance
- ☀ Prevents Fungus growth

EK Ecoline Industrial Water Gutter

Besides the standard design, we also provide custom made design according to the building design layout, and the profiles to suit any Architectural design for the building. EK Ecoline Industrial Water Gutter is Resistant towards corrosion from Rain & Sun and also Excellent for our Harsh Tropical Climate.

GENERAL TECHNICAL & SPECIFICATIONS

- ☀ Standard Length : 3000mm
- ☀ Girth Variations : 610mm, 914mm 1220mm, 1828mm
- ☀ Sheet Thickness : 1.80mm & 2.00 mm
- ☀ Gutter Solid Thickness 1.80mm
- ☀ Girth 610mm = 2.130 kg/meter
- ☀ Girth 914mm = 3.200 kg/meter
- ☀ Girth 1220mm = 4.300 kg/meter ☀
- Girth 1828mm = 6.400 kg/meter
- ☀ Gutter Solid Thickness 2.00mm
- ☀ Girth 610mm = 2.360 kg/meter
- ☀ Girth 914mm = 3.550 kg/meter
- ☀ Girth 1220mm = 4.730 kg/meter ☀
- Girth 1828mm = 7.100 kg/meter

GUTTER BRACKET

- ☀ Bracket Spacing Not Exceeded (610mm)

EK ECOLINE INDUSTRIAL WATER GUTTER

EK Ecoline Industrial Water Gutter is resistant to both rotting and rusting, which makes overall maintenance much easier. EK Ecoline Industrial Water Gutter rain gutters are very simple to install, which is why many do-it-yourselfers like them. This will also reduce installation costs if you have someone else install the gutters. This material will quietly move water away from your factory, but steel is fairly loud, rusty and not durable and sometimes annoying.
