

EK Ecoline Product Specialty

EK Ecoline Protective Industrial Coating " EKPC "

New Advance Technology Spray Coating Equipment

Painting Structure in a Large Scale with Technological Advanced Airless Spray Systems which is able to pump most type of Paint at High Pressure through a hose and out in a tiny hole, resulting in spraying paint evenly and efficiently across the surface

☀ PREMIUM SOLUTION ☀ COST EFFICIENCY

Why Needs Additional Protective Coating ???

☀ Durable, Tough, Abrasion Resistant, and Provides Cathodic (Sacrificial) Protection to any Small Damaged Areas Where The Steel Substrate is Exposed.

Additional Coated Purlin (Local Delivery)

Additional Coated Purlin (Export to Overseas)

Gavanizer Purlin Coating Service

The only "C" Purlin coating services available in Malaysia. We provide the best solution for your needs, from chemical-resistant products to spray paint coating services all in one stop. Choice of paint is flexible as to client preference.

Site Installation

Benefits of EK Ecoline Industrial Protective Coating System (EKPC)

" EKPC " The Best Solution Protection on the Galvanizer Roofs Purlin and MS Steel Structural, with " EKPC " Coating longer Life Expectancy, Atleast 3 to 4 times. (Cost Saving on Materials, Time Saving & Labour Cost) Extreme Protection Coating using New Technology Coating System that is Applicable for many Application like Extreme Chemical Resistant Coating, High Heat (High Temperature) Environment

Suitable Applications For :-

- ☀ Processing Plant
- ☀ Port Terminal
- ☀ Fertilizer Plant
- ☀ Aircraft Hangar
- ☀ Chemicals Plant
- ☀ Oil & Gas Terminal
- ☀ Coastal Resorts
- ☀ And etc.....

**Steel Structural Coated with
"EKPC" Protective Industrial
Coating. For Better Corrosion
Protection and Longer-Lasting**
